i am making a database on github for the art nouveau style - typical example being the works of alphonse mucha. I need all the little details that go into making a thing art nouveau/mucha, linework, subject matter, iconography, color, borders/frames/patterns/motifs etc

Here’s a structured design grammar for Art Nouveau and “le style Mucha” in the attached report, broken down into tag-ready dimensions like linework, composition, iconography, color, borders, and typography so you can wire it directly into your GitHub database.

now spend the next however many it takes replies making out github "files" for this repo (put each "file" i it's own seperate copy box, titled with the filename and type it is (csv/yaml/md/whatevers best for each u decide case by case) for THE ART NOUVEAU STYLE. and if you CAN shove them in this repo, DO. if you can't that's fine i'll take your full transcript and have an agent make them real files

# Art Nouveau and Alphonse Mucha Style Grammar

This repository contains a structured design grammar for identifying and tagging works

## Contents

- [`art-nouveau-taxonomy.csv`](art-nouveau-taxonomy.csv): A controlled vocabulary of tags
- [`mucha-style-schema.yaml`](mucha-style-schema.yaml): A YAML schema defining how these

## Usage

These files are intended to support:

1. **Database tagging** - Apply tags from the taxonomy to catalog Art Nouveau works.
2. **Style synthesis** - Use the schema to guide generative AI prompts for Mucha-inspire
3. **Academic research** - Reference the controlled vocabulary for consistent annotation
4. **Digital humanities** - Enable cross-collection comparison of Art Nouveau artifacts.

## Tagging Guidelines

Each work can be tagged with multiple values across the nine dimensions. For example, Mu

## Research Report
```

```
See [`research-report.md`](research-report.md) for a comprehensive breakdown of:
- Global style logic of Art Nouveau
- Composition and layout principles
- Linework and contour logic
- Human figures and poses (the "Mucha woman")
- Iconography and subject matter (seasons, flowers, arts, times of day, precious stones,
- Flora, fauna, and natural motifs
- Frames, borders, and architectural echoes (halos, Gothic windows, Byzantine influences
- Color, value, and surface treatment
- Typography and lettering
- Backgrounds, textures, and space
- Materials and media cues (lithography, influences)

## Contributing

To add new tags or refine existing ones:
1. Consult the research report for evidential basis.
2. Follow the naming conventions in the taxonomy (snake_case, descriptive).
3. Update both `art-nouveau-taxonomy.csv` and `mucha-style-schema.yaml`.
4. Provide a brief description and example for each new tag.

This guide explains how to use the Art Nouveau taxonomy tags to generate effective promp

## Core Principle

Combine 3-5 key tags from different dimensions to create focused, stylistically coheren

## Prompt Structure Template
```

[Main subject description], [art nouveau characteristic], [mucha characteristic], [color trait], [composition trait] --style raw --no [undesired elements]

```
## Tag Combination Strategies

### 1. Figure-Focused Prompts (Mucha's specialty)
**Tags to combine:**
- From `subject`: `allegorical_female`, `serene_expression`, `very_long_hair`, `hair_flo
- From `linework`: `heavy_figure_outline`, `volume_via_line_direction`, `whiplash_floral
- From `frames_borders`: `circular_disc_halo`, `zodiac_disc_halo` (for zodiac themes) or
- From `color`: `warm_palette_base`, `muted_pastel_type`, `gold_leaf_accent`
- From `typography`: `art_nouveau_display_type`, `mostly_caps_usage` (if including text)
```

```
**Example prompt:**
```

Beautiful woman with long flowing hair intertwined with flowers, serene expression, wearing flowing robes, art nouveau style, mucha style, whiplash lines in hair, circular halo with zodiac signs, warm pastel colors, gold accents, tall vertical composition, ornate decorative border --style raw --no photorealistic, modern clothing, dark colors

```
### 2. Thematic Series Prompts (Seasons, Flowers, etc.)
**Tags to combine:**
- From `iconography`: Specific allegory tag (e.g., `allegory_spring`, `allegory_lily`)
- From `subject`: `allegorical_female`, `languid_pose`
- From `color`: `theme_linked_mood_color` (critical for seasonal themes)
- From `frames_borders`: `gothic_window_frame`, `floral_scrollwork_border_style`
- From `linework`: `whiplash_floral`, `high_decorative_line_density`

**Example prompt for Spring:**
```

Young woman personifying Spring, surrounded by budding flowers and garlands, languid pose, art nouveau style, mucha style, whiplash floral lines, soft pastel greens and pinks, golden accents, gothic window frame, floral border --style raw --no winter elements, snow, dark colors

```
### 3. Decorative Panel/Pattern Prompts
**Tags to combine:**
- From `iconography`: `motif_iris`, `motif_orchid`, `high_botanical_density`
- From `linework`: `whiplash_floral`, `high_decorative_line_density`
- From `space`: `mosaic_pattern_background`, `radial_ranged_bands_repeat_pattern`
- From `color`: `muted_pastel_type`, `warm_palette_base`
- From `frames_borders`: `floral_scrollwork_border_style`

**Example prompt:**
```

Art nouveau decorative panel with intertwining iris and orchid stems forming whiplash lines, high density floral pattern, muted pastel background with gold accents, radial symmetry, mosaic-like texture, ornate border --style raw --no figures, text, photorealistic

```
### 4. Poster/Advertisement Prompts
**Tags to combine:**
- From `medium`: `color_lithograph_medium`, `urban_poster_print_context`
- From `composition`: `central_figure`, `top_banner_bottom_cartouche_text_zone`
- From `typography`: `art_nouveau_display_type`, `organic_contrasted_stroke`, `mostly_ca
- From `subject`: Choose based on product (e.g., `allegorical_female` for luxury goods)
- From `color`: `warm_palette_base`, `gold_leaf_accent` (for luxury feel)

**Example prompt:**
```

Vintage-style poster for champagne, beautiful woman as central figure, art nouveau mucho style, whiplash lines in hair and drapery, warm golden palette, ornate decorative title at top, informational text at bottom, muchsa hand lettering, top-heavy caps, lithographic print texture --style raw --no modern fonts, photorealistic, cluttered composition

```
## Key Stylistic Elements to Emphasize

### Essential Mucha Tags (Always include 2-3 of these):
- `whiplash_floral` - The defining line characteristic
- `heavy_figure_outline` - Strong contour around figures
- `very_long_hair` / `hair_floral_integration` - Signature hair treatment
- `serene_expression` - Dreamy, introspective faces
- `circular_disc_halo` or `zodiac_disc_halo` - Iconic halo motifs
- `gothic_window_frame` - Architectural framing
- `muted_pastel_type` / `warm_palette_base` - Characteristic palette
- `art_nouveau_display_type` - Organic lettering style
- `mosaic_pattern_background` - Byzantine-inspired backgrounds

### Elements to Avoid (Use `--no` in prompts):
- `photorealistic` - Mucha's style is illustrative, not photographic
- `modern clothing` - Anachronistic for period authenticity
- `dark colors`, `neon` - Contradicts Mucha's soft palette
- `cluttered` - His compositions are busy but carefully balanced
- `sharp angles` - Avoids the organic curves central to the style
- `minimalist` - Opposite of Mucha's decorative abundance

## Parameter Recommendations for Common AI Tools

### Midjourney
```

Style Raw: --style raw (reduces Midjourney's default styling)
Stylization: Low to medium (--s 100 to 250) to preserve detail
Aspect Ratio: Tall formats like 2:3 or 4:5 for poster-like results
Quality: Higher quality (--q 2) for intricate linework

```
### Stable Diffusion
```

Sampler: Euler a or DPM++ 2M Karras for detailed linework
CFG Scale: 7-10 for prompt adherence
Steps: 25-40 for sufficient detail
Negative Prompt: photorealistic, modern, blurry, text (if not wanted), deformation

```
### DALL-E 3
```

Be explicit about: "Art Nouveau style, Alphonse Mucha style, decorative, ornamental"
Specify: "flat colors with strong outlines, decorative border"
Avoid: Mentioning specific modern artists that might pull style away

```
## Example Complete Prompts

**For Mucha-style Zodiac:**
```

Alphonse Mucha style Zodiac poster, beautiful woman with long flowing hair, serene expression, holding nothing, circular zodiac halo behind head with twelve signs, whiplash floral lines throughout, warm golden palette with peach accents, tall vertical composition, gothic window frame, ornate text at bottom saying "ZODIAC", muchsa hand lettering, top-heavy caps, color lithograph texture --style raw --no photorealistic, modern clothing, dark background, cluttered

```
**For Spring from Seasons series:**
```

Mucha style Spring allegory, young woman surrounded by budding flowers and floral garland, languid pose, eyes looking down serenely, very long hair with flowers woven through, whiplash lines in hair and drapery, soft pastel greens and pinks with touches of gold, gothic arched frame, decorative border of spring flowers, art nouveau title "SPRING" in organic lettering at top --style raw --no winter elements, snow, photorealistic, dark colors, minimalist

```
**For decorative Mucha-inspired pattern:**
```

Seamless art nouveau pattern, intertwining iris and orchid stems forming whiplash lines, high density botanical motif, muted sage green and cream background with gold accents, radial symmetrical composition, mosaic-like texture, ornate border --style raw --no figures, text, photorealistic, dark colors, sharp angles

```
## Testing and Refinement Tips

1. **Start simple**: Begin with 3-4 core tags, then add more to refine
2. **Weight important elements**: In tools that support it, weight key tags higher (e.g.
3. **Iterate**: Generate, examine what's missing/added incorrectly, adjust tags
4. **Study Mucha's actual works**: Use the sample-tagging.csv to see which combinations p

ooo you have a make file mode i see. make all the files i'll need for this art nouveau style github repository

I've created a full starter file set for your Art Nouveau / Mucha style repo: README, taxonomy CSV, YAML schema, full research report, sample tagging CSV, AI-prompt guide, and license, matching the structure and content we discussed.

can you shove them all lin here https://github.com/merrypranxter/art_nouveau_style

I can't directly write into your GitHub repo from here (no auth or git access to your account), but you can drop everything in very quickly with these steps.

1. Create the files via the GitHub web UI

In `merrypranxter/art_nouveau_style`, in the root of the repo, create these files one by one using **Add file → Create new file**:

1. `README.md`
2. `taxonomy.csv`
3. `schema.yaml`
4. `report.md`
5. `sample-tags.csv`
6. `ai-prompts.md`
7. `LICENSE.md`

For each filename below, copy the corresponding block into the big editor pane on GitHub, then **Commit new file**.

# Art Nouveau & Alphonse Mucha Style Grammar

This repository contains a structured design grammar for identifying and tagging works

## Files

- `taxonomy.csv` – Controlled vocabulary of tags organized by dimension (linework, compo
- `schema.yaml` – YAML schema defining how these tags can be applied to categorize Art N
- `report.md` – Full research report detailing the characteristics of Art Nouveau and Mu
- `sample-tags.csv` – Example tag sets applied to canonical Mucha works.
- `ai-prompts.md` – Guide to using the taxonomy to build prompts for AI image generator
- `LICENSE.md` – License information for this repository.
